

TCM Series

Motorized Test Stands

100 lbf (500 N) & 350 lbf (1500 N)

Features

Key Features

► Easy Operation

A single key press to start the test and a return to zero function save time. A high maximum speed of 40 in/min (1016 mm/min) further reduces cycle time.

► Smart Functionalities

The large touch sensitive buttons feature haptic feedback that reduces the time taken to configure and run a test while reducing operator errors. Tests can be configured to pull to a set position or cycle between 2 positions. When combined with specific Chatillon force gauges, additional features such as driving to a load limit and recording break forces become available.

► Accurate Test Results

Combined with the Chatillon DF II Series force gauges the load accuracy exceeds 0.1% full scale. Advanced electronics enable set speed accuracy of < 0.1% of set speed value and data sampling rates up to 10 KHz.

► Large Working Area - Small Footprint

The compact TCM features a large throat depth enabling samples up to 7.96 in (200 mm) diameter to be tested, yet retains a compact footprint.

► Data Analysis and Integrity

Optional Chatillon ForceTest software allows viewing data in graphical form, data logging, result calculations, pdf report creation and data export. Password controlled access helps ensure the integrity of the data produced. Download your free trial version now at www.ametektest.com.

Intuitive Effectiveness

The motorized TCM Series from Chatillon offers fast and effective force testing at an affordable price.

The TCM Series features a high frame stiffness, light weight bench top design suitable for both production and laboratory environments.

Force ranges of 100 lbf (500 N) and 350 lbf (1500 N) are available in both 16 in (406 mm) and extended 32 in (812 mm) travel versions.

Select from Chatillon's wide range of grips and fixtures to use the TCM Series for a wide variety of tests such as:

- Tension
- Compression
- Bending
- Peeling
- Adhesion
- Insertion and extraction

Force Capacity

TCM100.....	100 lbf / 500 N
TCM350.....	350 lbf / 1500 N

Crosshead Travel

TCM100.....	16 in / 406 mm
TCM100 Extended	32 in / 812 mm
TCM350.....	16 in / 406 mm
TCM350 Extended	32 in / 812 mm

A Modular System

The TCM Series offers you a flexible force measurement solution that matches your exact needs. This way you get a solution that lives up to your requirements, without costs for additional features you do not need. Should your needs change over time then it is easy to upgrade your TCM solution to fit your new requirements.

Base Solution

The TCM Series can be used in combination with Chatillon DFE or DFS Series force gauges. This way, if you already have a Chatillon force gauge available, you only need to acquire the TCM Series test stand to get started on your force testing, enjoying all of

the benefits that the TC Series has to offer:

- ▶ Easy operation
- ▶ Haptic feedback buttons
- ▶ LED color display
- ▶ Set position or cycle between 2 positions

Extra Benefits

By adding a digital force gauge from the Chatillon DFE or DFS Series to your TCM Series test stand, additional features will become available enabling you to perform a more advanced, fast and easy force testing on your specimens.

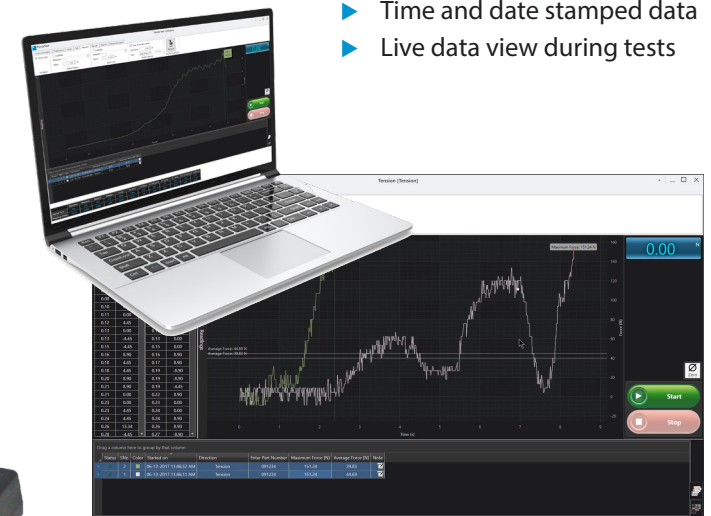

- ▶ Drive to load limit
- ▶ Password protection
- ▶ Pass/Fail limits
- ▶ Average load
- ▶ Statistics
- ▶ Peak break force
- ▶ Contact close feature
- ▶ Access to ForceTest PC software

Fast and Easy Analysis

Adding the Chatillon ForceTest software will power up your TCM Series force testing solution and will turn your analysis into a fast and simple process. By combining the DFE or DFS Series gauge and the ForceTest software with the TCM Series you obtain:

- ▶ Seamless serial data communication from the test machine to your computer
- ▶ Save test setup and achieve faster workflow
- ▶ Export data as CSV or PDF
- ▶ Time and date stamped data
- ▶ Live data view during tests

Specifications

Technical Specifications

Force Capacity

TCM-100	100 lbf / 500 N
TCM-350	350 lbf / 1500 N

Speed Range

TCM-100	5.08 to 1016 mm/min / 0.2 to 40 in/min
TCM-350	5.08 to 1016 mm/min / 0.2 to 40 in/min

Speed Accuracy

0.1% of set speed value

Crosshead Travel

TCM100	16 in / 406 mm
TCM100 Extended	32 in / 812 mm
TCM350	16 in / 406 mm
TCM350 Extended	32 in / 812 mm

Supply Voltage

207-253 VAC at 50 Hz or 103.5-126.5 VAC at 60 Hz

Load Measurement

Chatillon DF Series gauge

Software

ForceTest

Weight

57 lbs / 26 kg - Standard height
69 lbs / 32 kg - Extended height

Shipping Weight

197 lbs / 90 kg - Standard height
209 lbs / 94 kg - Extended height

Throat Depth

3.98 in / 100 mm

Operating Temperature

50-104° F / 10-40° C

To ensure you receive an accurate, reliable instrument of the highest quality, Chatillon force measurement machines are designed and handcrafted at our factories in the United States in accordance to ISO 9001.

The TCM Series is CE certified and supported by our global service centres in accordance to ISO 17025.

Quality and integrity are part of our DNA, and we would like to help make it a part of yours as well.
